Absence costs money

Research by specialist Sazas shows that the costs of absenteeism can amount to as much as €405 per day. High-quality computer glasses provide greater visual comfort, which in turn helps reduce absenteeism.

Choose Between Two Types of Lenses

Our computer glasses are available in two types of lenses: Basic and Ultra. Both glass lines are designed for daily use, with a strong focus on comfort, durability, and reliability. They both fully comply with health and safety regulations and are perfectly suited for professional screen work.

Details make the difference: how relaxed your eyes feel after a long day of work, how comfortable the glasses remain throughout the day, and how their quality is maintained over time. Whichever lens line you choose, you always get a solution that provides optimal support for every working day.

Basic Lenses

Our Basic computer lenses offer exactly what is needed for comfortable screen work. They are equipped with scratch-resistant and anti-reflective coatings for clear vision and everyday use. Reliable, straightforward, and effective.

Basic Coatings

- ✓ Scratch-resistant
- ✓ Anti-reflective
- × Transparent coating
- × Repellent coating
- × Blue filter

Ultra Lenses

The Ultra lenses provide maximum working comfort and go beyond meeting health and safety regulations. This lens line is the ideal choice for organizations aiming to minimize absenteeism and other risks as much as possible.

Ultra Coatings

- ✓ Ultra scratch-resistant
- ✓ Ultra anti-reflective
- ✓ Ultra transparent
- ✓ Ultra repellent (water/dirt/dust)
- ✓ Ultra protection against blue light

Basic Lenses

Simple, Reliable, and Effective

Scratch-resistant coating

This basic coating protects the lenses against scratches and other small damages. As a result, the glasses stay clearer and cleaner for longer, keeping screen work comfortable.

Anti-reflective coating

The anti-reflective coating reduces glare from screens, lights, and sunlight. This allows you to see more clearly and work more comfortably. It provides a crisp viewing experience and makes your eyes appear more visible.

Prices Basic Lenses

Our Basic computer lenses are reliable, simple, and effective. They provide exactly what is needed for comfortable screen work and comply with health and safety regulations.

The price of the Basic lenses depends on the type (single vision or multifocal) and the lens thickness (lens index). Below is an overview of the price categories for our Basic lenses. All prices are per set of lenses and exclude VAT.

Lens type	Lens index 1.5	Lens index 1.6	Lens index 1.67
Multifocal WorkForce Far and near vision Nearview / Midview / Longview	**Regular lenses** Price per set excl. VAT **€ 263.64**	**Extra thin lenses** Price per set excl. VAT **€ 387.60**	**Super thin lenses** Price per set excl. VAT **€ 461.98**
Single vision Far or near vision	**Regular lenses** Price per set excl. VAT **€ 131.40**	**Extra thin lenses** Price per set excl. VAT **€ 247.11**	

Ultra Lenses

Powerful, comfortable and relaxing

Ultra scratch-resistant

The Ultra lenses have a multilayer coating with a very high surface hardness. Tested according to Bayer testing, they are more resistant to micro-scratches than the Basic coatings, even with intensive use.

Ultra transparent and anti-reflective

These Ultra coatings have a very high light transmission. This reduces reflections on both sides of the lens and ensures stable, clear vision in varying light conditions.

Ultra-repellent (water/dirt/grease/dust)

The hydrophobic and oleophobic top layer with a high water contact angle prevents water, grease, dirt, and dust from quickly adhering. This makes contamination easy to remove, even after prolonged and frequent cleaning.

Ultra comfort thanks to blue filter

Selective filtering of blue light from screens. Designed for prolonged screen use and visual comfort without disrupting color perception.

Prices Ultra Lenses

This lens line offers maximum working comfort and goes beyond simply complying with occupational health and safety regulations. It helps reduce eye fatigue, promotes better posture, and extends the lifespan of the lenses. This is the ideal choice for organizations that want to minimize absenteeism and avoid risks associated with extensive screen work.

The price of the Ultra lenses depends on the type (single vision or multifocal) and the lens thickness (lens index). Below is an overview of the price categories for our Ultra lenses. All prices are per set of lenses and exclude VAT.

Lens type	Lens index 1.5	Lens index 1.6	Lens index 1.67
Multifocal WorkForce Far and near vision Nearview / Midview / Longview	**Regular lenses** Price per set excl. VAT **€ 304.96**	**Extra thin lenses** Most popular Price per set excl. VAT **€ 428.93**	**Super thin glasses** Price per set excl. VAT **€ 503.31**
Single vision Far and near vision	**Regular lenses** Price per set excl. VAT **€ 172.73**	**Extra thin lenses** Price per set excl. VAT **€ 288.43**
