Comply with rules and regulations

Do your employees work in an environment with an average noise level of 80 dB(A) or higher? If so, as an employer, you are required to provide hearing protection. Custom-made earplugs are the most sustainable way to comply with this requirement.

Our Customized Hearing Protection

Together with our partner Alpine, we supply high-quality custom-made hearing protection. All of our custom earplugs offer excellent wearing comfort and optimal protection against harmful noise. Regardless of your employees' tasks, we help you choose the right earplugs and filters, so they can work comfortably, safely and effectively. Below, we briefly explain the different types of custom earplugs.

WorkSafe

WorkSafe offers extra-high attenuation that blocks harmful noises from tools, machinery, vehicles, etc.

- ✓ Custom-made work earplugs
- ✓ Choose from 24, 25 & 29 dB
- ✓ Protection for general work

Focus

Improve your employees' concentration with custom-made focus earplugs, even in busy environments.

- ✓ More focus, less absence
- ✓ Choose from 22, 23 & 24 dB
- ✓ Perfect for busy offices

Security

Security earplugs are designed for situations where both protection and communication are essential.

- ✓ With two-way radio connection
- ✓ Choose from 24 & 25 dB
- ✓ When communication is key

MusicSafe

MusicSafe features linear filters, ensuring your hearing is protected without distorting the music.

- ✓ The best choice for music
- ✓ Choose from 19, 22 & 26 dB
- ✓ Minimal sound distortion

Fitting at Your Location or In-Store

The custom earplugs are always fitted by a trained otometrist and can be done either at your location or at a Hans Anders store.

Fitting in-store

After the order has been placed, your employees will automatically receive an order confirmation. With this confirmation, they can visit one of the 200 Hans Anders hearing care stores in Netherlands and Belgium to have their hearing protection fitted or checked.

Fitting at your location 📍 Free from 5 sets onwards

Do you prefer to have the earplugs fitted or checked at your own location? One of our otometrists will be happy to visit you on site. Fitting and inspection are completely free for sessions of 5 sets or more. All you need to do is create an order, after which we will contact you to schedule an appointment for the fitting or check. It's that simple.

Options & Free Extra's

All of our custom earplug sets are supplied with the corresponding accessories. You will receive the following extras free of charge with every set:

- ✓ Free case
- ✓ Free cord and clip
- ✓ Free personalization
- ✓ Free choice of color and hardness

Free personalization

Earplugs are easily lost or confused with someone else's. Each of our custom earplugs is engraved with a unique number and your first name, making it quick and easy to identify the owner.

Alpine Clean Spray 🔹 Frequently chosen

To extend the lifespan of your custom earplugs and prevent ear problems, it is advisable to clean them after use with Alpine Clean Spray.

Detection ball

A detection ball is a small metal sphere embedded in a custom earplug, allowing it to be located with detection equipment if lost. Detection balls are primarily used when strict product safety requirements apply. This option is only available in combination with WorkSafe.

Prices Customized Hearing Protection

In the table you find the prices of our custom earplugs, additional options, inspections, and fittings. All prices mentioned are exclusive of VAT and include a case, cord, clip, choice of color, choice of hardness, and engraving.

** On-site fitting is free for groups of five or more. For fewer than five participants or in case of a no-show, a minimum on-site fee of €60 excl. VAT applies.*

*** If it is recommended during the maintenance session to replace the custom earplugs, the maintenance costs will be waived.*
